Tasty and creative cakes seem to be the centerfold of most gatherings nowadays, such as parties, get-togethers, and other types of celebrations. Outside of events, cakes are great to make for a family member's birthday, or just because. Yet traditional cake baking can be a laborious task. If you are like the majority of people, you are on a constant search for a great, simple dessert recipe but just do not have the time to measure, sift, pour, bake, and clean in order to enjoy that sweet, delicious chocolate, vanilla, or fruity goodness. Fortunately for you, this e-book will show you several recipes that utilize nothing more than a few simple ingredients, a microwave or oven, a mug that is microwave or oven safe, and your appetite! Cake mugs, as they have come to be called, are one of the more recent dessert trends that is sweeping the country, as party planners and bakers have found adorable little ways to prepare and serve delicate cakes. The only limit to what you can do is the size of your mug!--To Get Started, Scroll Up And Grab Your Copy! --HERE ARE JUST A FEW OF THE AMAZING MUG RECIPES INSIDE THIS BOOK--

Customer Reviews

Mug Cakes Fun and easy way to make gifts for your friends and family. Microwave a cake in a mug with ingredients you have on hand. No pictures and no nutritional information. Carrot cake and raisins would be my selection. Lots of flavors to choose from and with price of dollar store mug it's a perfect gift. Other works by the author are highlighted at the end.

If you think baking must be hard or involve tons of dishes, you'll find this book interesting! Most of these recipes are made with only measuring spoons, a mug and spoon to stir. A few that have ingredients like nuts or fruit involve a knife and cutting board but are still very simple, and nuts can often be bought already chopped if needed. I live with a diabetic so I'm not making family-sized cakes anymore so I love this book. Be aware that cakes with a high proportion of egg can be rubbery if overcooked and watch carefully and adjust times as needed, possibly longer for 700 watt ovens and shorter for those almost commercial sized high powered ovens. I got this free on promotion, but I feel it is worth paying for. Enjoy!

I ate a mug cake last month in the restaurant and I really like it. I am craving for a mug cake now but buying from a restaurant is so expensive. I am wondering if I can do it at home. I searched on how to do mug cakes and it brings me to this book. This book has recipes that are so easy and fun to do. I never thought that mug cakes are easy to do like this. I saw the recipe of the mug cake I ate last month and actually it is my favorite. I suggest that put images in this book so that we readers know what the finished product of each recipe is.

Slurp! Great set of recipes that require a few more ingredients than some other mug cake books, but the cakes are divine. Well worth the extra effort. No glaring spelling or grammar errors. This book was worth purchasing.

used for office party and they loved it

love it...so easy and convenient...

Very fun to do with kiddos.

Arrived within 24hours, bought as gift for bff who loves cooking in her mug
