EARL STEINBICKER is a born tourist who believes that travel should be a joy, not an endurance test. For over 35 years he has been refining his carefree style of daytripping while working in New York, London, Paris, and other cities; first as head of a firm specializing in promotional photography and later as a professional writer. Whether by public transportation or private car, he has thoroughly probed the most delightful aspects of countries around the world " while always returning to the comforts of city life at night. A strong desire to share these experiences has led him to develop the "Daytrips" series of guides, which he continues to expand and revise. Recently, he has been assisting other authors in developing additional "Daytrips" books, further expanding the series.

One of the very best day trip books I have ever purchased. We started our Nov. 2008 Germany / Bavaria trip in our base town of Munich. Would strongly suggest using this town as a base camp

because the rail system is superb. We took 3 day trips on our own using exactly ever recommendation in this book for 2 of those trips (Regensburg & Garmisch/Zugspitze) the Regensburg trip was awe-inspiring in detail and wish we would have had more time to tour the older areas of the town. Wish there had been a section on Landsberg in the book, so we would have had the same support as the other 2 day trips. We also used the book, when we took guided tours to Salzburg, Fussen and during our stay in Munich. I will only purchase this line of day trip books from this point on. Wish we had London's book in late May, and I do not see an Ireland version for our upcoming May 2008 trip.
