Two talented photographers focus on the Horn of Africa--an "ark" that shelters an astonishing variety of landscapes and human societies. Starting with the Christian Amharas of Lalibela and Axum and the Falashas of Lake Tana, they complete an arc that takes them to the seacoast of Eritrea, Djibouti and Somalia, as far south as Lamu in Kenya, and finally to the remote peoples of the Southeast who still engage in stick fighting, body painting, scarification and the wearing of lip plates. Other handsome peoples they depict include the desert-dwelling Afar, Beja and Rashaida, the Somali nomads of Ogaden and the ecstatic Oromo (formerly Galla) pilgrims of the Bale Mountains. As in Beckwith and Fisher's previous, award-winning books (*Maasai* and *Nomads of the Niger*), their magnificent color photos (240 of them here) are the glory of this beautifully designed volume. Hancock's (*Ethiopia*) useful if uninspired text covers indigenous societies, cultures, crafts, religions, sacred places, dances, and cycles of life and death. Beckwith and Fisher's visually stunning pictorials of African cultures (they have worked separately on earlier books about the Masai and Fulani) combine beautiful photos of people and objects with easy-to-read explanatory texts sprinkled with charming line drawings. Joining forces here, with the literary assistance of journalist Hancock, they focus on probably the least understood and most

"exotic" African region. Each chapter covers a different people among Ethiopia's remarkably diverse cultures: Coptic Christians, Falasha Jews, Somali Moslems, and traditional animists. Lacking an index and extensive bibliography, the book's value as a research tool is limited, yet as visual documentation of little-known cultures and art forms it is strongly recommended.- Eugene C. African Ark is one of the finest coffee table books about the people of Africa. Photos are plentiful and outstanding. Carol Beckwith is very gifted. Having lived in Africa, the photos in this book are authentic. Can almost smell the smells and hear the sounds of Africa. Substantial looking and feeling, this is a great coffee table book - whether you have a coffee table or not!

I first saw this book in an Ethiopian restaurant in Amsterdam on vacation. I was on my own and the book was there, so while waiting for my delicious meal I thumbed through the lush photos and fell into a trance of wonder and delight. I am an artist, interested in design (former graphic artist) and pattern. It was incredibly inspiring. The photographs are very beautiful and the dignity of the people are not compromised in these images. When I returned from my holiday I quickly ordered the book and feel fortunate to own such a magnificent tribute to an incredible culture. It is something I will continue to pour over for a long time to come.

Breathtaking book . i am so glad that I ordered it.

Great Find!! I was thrilled when I found this book on line. I have been looking for this table book for a few years. The seller described the book's condition to a tee! It arrived in excellent shape, and I am extremely happy. I would do business with this seller in the future. Thanks again!
