Customer Reviews

If you like pretty flowers and beautiful foliage then this is the adult coloring book for you. Each page

is prettier than the next. I absolutely love the artwork by Jade Summer in this book. Stunning beautiful scenes are so relaxing to color. I have the PDF copy so I can reprint and color a new one in a new color. I very highly recommend this book.

This is my all time favorite book! The pictures are on one side and the back side is black. So no bleed through if using gel pens. It's genius, every coloring book should have that. Another great plus is that every picture is duplicated. So if you did one and wonder if your color choices could have been better, or pencil would have been better than gel pen, you get another chance to color it! In the back there is an access code to use on-line for more free printable pictures. I haven't received them yet, but I'm excited to get them. This really is a great coloring book, and priced under \$10 is another surprising bonus. So very happy with this purchase.

I am enjoying this coloring book. While I see nothing 'magical' about the themed artwork, I do like floral/nature drawings. Not intricately detailed, they leave plenty of room (for instance in the larger flower petals and leaves) for experimenting with shadowing. Strangely enough, I also like having 2 copies of the same drawings to further practice and experiment with different colors using various media... like gel pens, pencils, and/or markers. The paper is not the best, but does seem to take pen and pencil coloring very well. I do recommend placing a sheet or two of scratch paper behind the page you're coloring... just in case. I always keep a scrap piece of paper handy to get the pens started and/or to see what colors work together anyway. Frankly, I'm not too fond of her animals, but they are not the primary focus of the book. In fact, I liked this book so well, I ordered her Hidden Garden book also.

This little book is pretty awesome. My mother is a fairy fanatic and she loves to color adult coloring books. So when I found this magical forest book, I knew she would love it. It has tree designs and little hut pictures and other mandala like pictures. It's a really good quality coloring book for the price.

Just received mine yesterday... I missed in the product description that there are 2 sets of the same pictures.... so that is a bit disappointing.... if I want a second copy for back up I can photocopy on my own... I don't see the logic in the publisher doing two sets of the same pictures other than to charge more. That said - I do love the pictures. They are going to be fun to do... the style is exactly what I like.

I love this coloring book. There are actually 2 copies of each illustration in the book. But I like that as I can recolor the picture in a different way each time. The back of each page is black so there is no bleed thru. This is not too intricate and I like that. It is indeed magical drawings.

I love this book and it does not tell you how to access the pdf version the code to it is the back of the book but you have to contact the website and You can send an email to:

Contact@JadeSummer.com The customer support team will help you out.they should get back to you soon and send you the PDF you just need to click the link and it will open. The access code is what you put in your email message to prove that you purchased the physical book.For almost all of the Jade Summer books we put every image in the book twice. This gives people a chance to color the same image differently if they want to. So 25 coloring pages x 2 would be the 50.The PDF version only has 25 coloring pages. You can print out each page as many times as you want.

Just got my book and I like it. I have tried a variety of books and will be checking out more books. I like the variety of drawings it gives me the chance to go with my mood, am I looking for detailed work or just basic coloring. Definitely give the book a try the fact that its only one picture to a page is nice (backside is black). The pictures are not the same thing over and over. I like to go through the pages and the one that I can look at and see the color choices I would use for that page is the one I do. Enjoy worth the buy.
