Storm (Swipe Series)

Synopsis

In a future United States under the power of a charismatic leader, everyone gets the Mark at age thirteen. The Mark lets citizen shop, go to school, and even get medical care—without it, you are on your own. Few refuse to get the Mark. Those who do . . . disappear. Logan Langly went in to get his Mark, but he backed out at the last minute. Ever since, he’s been on the run from government agents and on a quest to find his sister Lily, who disappeared when she went to get her Mark five years earlier. His journey leads him to befriend the Dust, a vast network of Markless individuals who dissent against the iron-grip rule of the government. Along the way to the capital to find Lily, the Dust receive some startling information from the Markless community, opening their eyes to the message of Christianity and warning that humanity is now entering the End of Days. In Storm, Logan and his friends are the leaders of the Markless revolution. But while some Markless are fighting Chancellor Cylis’s army, the Dust is busy trying to find a cure for a horrible epidemic sweeping through the Marked. And it’s difficult for them to know who to trust, especially when they aren’t sure if Logan’s sister Lily, one of the commanders in Cylis’ army, is on their side or not. And all across the nation—and the world—the weather has become less stable and a storm is brewing that bigger than any of them could have ever imagined. Meets national education standards.

Evan Angler is safe, for now. He lives without the Mark, evading DOME and writing in the shadows of Beacon. But if anyone asks, you know nothing about him. Don't make eye contact if you see him. Don't call his name out loud. He's in enough trouble already. And so are you, if you read his books.

We just got this much anticipated book. Luckily for us it came earlier than the release date said when we preordered. I didn't tell the kids and when it got here, they were just so excited to see it on the counter. One of my teen boys who got hold of it first was the first to start reading it, but his big sister stole it from him later when he took a break. We haven't all gotten to read it yet, but my daughter says it is excellent and she is very picky about her books. My son is halfway through and is trading his video game time for it (they don't get much video game time; so that should tell you something). He loves Evan Angler's swipe series books and even emailed him a long time ago to find out when his next book was coming out. He's a really nice guy and responded to my son to let him know. We pray that his career goes far. My son let him know that they should be made into movies and I totally agree, they would be way better than most of the "end time" movies out there. I wish someone would take notice. Anyway, I'm just happy that my boys are wanting to read and fighting over who gets to read it first because they actually hate reading. They don't want to touch any of their sister's Sonlight books but fight over these when they come out. I feel lucky that I discovered the first of the series in a bookstore randomly. I don't want you to think these are just kid books though, my husband and I have equally loved the series and can't wait until the kids are done with it so we can get our hands on it. Make sure you read the other two books first if you possibly can; Swipe and Sneak.

The story started out well enough and I was totally onboard until a brief mention of "rapture". At first I was sure it was poetic license, as the rest is so unrepentantly end-time and few are clear on what the Bible isn't terribly coquettish about.. But it's fiction! Right?Yeah. So now we've deep-ended. I don't know if this is biblical fiction or just plain Sci-fi masquerading as the good stuff. Only one more book available, and I'm too old to be swayed on Truth, just annoyed to have recommended this as the the real thing.Otherwise: sharp as ever, fast paced & lots of plot twists. It is going somewhere.. Hopefully.

I got this series for my daughter and she loves them. I love the fact that it's written by a Christian author.

This book is amazing. Once you start it will be hard to put it down. I can't imagine what goes through the minds of the Dust, Logan, and Lily. I highly recommended this book for any one of the age 13 or older. It's a great story but there are some parts that might scare younger children, there are also a lot of things that will make you think, so read the book with an open mind and enjoy.

This book continued with an already incredible story! I could not stop reading wanted to know what was going to happen next! The story definitely engages the reader. I love how the story builds and then the author decides to send you for a loop always keeping you thinking about what challenges the dust and Logan Langley will face next and just how will it all end up. Great book loved it!!!! Can't wait to start reading the fourth and final book

From the start I was hooked on this series. The characters are my age and very relatable. It is about ordinary kids in extraordinary situations. Although this book felt like a bridge for more, the climax was great and the suspense was good. This book in the series made me like all of the chargers even more and care for them. I like how there's not alot of romance. So yeah. Definitely read this, but after from the beginning: Swipe, Sneak, Storm, and coming soon: Spark

Great book plenty of action and many unsuspecting twists and turns! The characters were well developed and likeable. If I'm honest I was a bit annoyed by Erin but the Dust members were very enjoyable to hear from!
