Camelot: A Role-Playing Simulation For Political Decision Making

Synopsis

CAMELOT: A ROLE PLAYING SIMULATION introduces you to the interactions of contending and contentious groups and individuals whose values and goals range from radical to reactionary. It addresses such issues as equal opportunity, right to life, freedom of expression, affirmative action, property rights, gay rights, and more. You will quickly learn that competing interests and viewpoints - with their varying degrees of organization and cohesiveness - make political decision-making complex, time consuming, exciting, and often difficult to predict.

Role Descriptions, Settings, and Lists of Duties.

James R. Woodworth has been a member of the Department of Political Science at Miami University (Ohio) since 1948. He received a Ph.D. in political science from Harvard University and had a postdoctoral fellowship at the University of Minnesota. He has served in several

administrative positions at Miami University, including the chair of the Department of Political Science, and associate dean of the College of Arts and Science. Dr. Woodworth has been a member of the Oxford City Council, chaired the Oxford Charter Commission and served as a trustee for a local hospital and as a consultant to the Fairfield (Ohio) Charter Commission. His publications include ATLANTIS: ROLE-PLAYING SIMULATIONS FOR THE STUDY OF AMERICAN POLITICS (with Robert Gump), PARLIAMENTARY PROCEDURE, plus articles. W. Robert Gump has been a member of the Department of Political Science at Miami University (Ohio) since 1962. He received a Ph.D. in political science from The Ohio State University and a J.D. from the University of Michigan. He was admitted to practice at the Ohio Bar in 1952. Dr. Gump has served as chairman of the Oxford City Planning Commission, as a trustee for a local hospital, and as a consultant to the Charles F. Kettering foundation, the City of Dayton Charter Review Committee, the City of Middletown Charter Review Committee, and the City of Hamilton Charter Review Committee. His publications include ATLANTIS: ROLE-PLAYING SIMULATIONS FOR THE STUDY OF AMERICAN POLITICS (with James R. Woodworth), plus articles. James R. Forrester has been a faculty member of the Department of Social and Behavioral Sciences at West Liberty State College (West Virginia) since 1969. He received his Ph.D. in political science from West Virginia University in 1979. He is a member of the Bethany (West Virginia) Town Council and has been a presidential election consultant for WTOV-TV Channel 0, Steubenville/Wheeling. His publications include GOVERNMENT AND POLITICS IN WEST VIRGINIA: READINGS, CASES AND COMMENTARIES, 5th edition, plus articles.

Whether you're reading this for fun, or planning on using this for a class or organization, this book provides an inside look into the roles people play in local politics and government. I'm a clerk for two local commissions in my city, and the information I've read in this book is a similar model of our meetings. The chapters are not lengthy, but the authors managed to touch on pertinent details involved within resident and voting members activity. Well worth the read!

Great tool for a class. Make sure you explain well before throwing students into it

Great

This text was purchased as required for a role playing exercise in a political science class. The simulation setting and all needed information is included and easily understood. The exercise allows

for creativity and personalities to emerge.

I am almost done with the book, overall I understand the point of view of the writer, but adversely the writer seems strictly to adhere to a extreme liberal philosophy. Where government is the answer for all problems facing society. Where have we as a American society splintered off to consider ourselves in separate American Categories instead of One Nation.

A little more worn off than I expected. But was still readable. It arrived on time. I will recommend buying of this person for the most part.
