Book by Bell, Mary T.

If you have any interest in Schroeder, Minnesota, you should buy this book. Schroeder has an interesting, but probably not unique history. If you've driven through on highway 61 you've seen Bob Silver's mill, the Cross River and other things mentioned in this book. Five stars for historic interest.

The ravaging of the piney woods of Wisconsin and Minnesota in the last of the 1800's and early part of the 1900's is akin to the deforestation of the Basin today. We ought to study what we did a little closer. This book is an excellent guide in words and rare photos of what happened up there and the impact the activities of one man, John Schroeder, had in the ancient forests bordering Lake Superior. Foreword by Eugene McCarthy, who recalls relatives in the logging of those forests.
