Dr. Seuss was born Theodor Geisel in Springfield, Massachusetts on March 2, 1904. After attending Dartmouth College and Oxford University, he began a career in advertising. His advertising cartoons, featuring Quick, Henry, the Flit!, appeared in several leading American magazines. Dr. Seuss's first children's book, *And To Think That I Saw It On Mulberry Street*, hit the market in 1937, and the world of children's literature was changed forever! In 1957, Seuss's *The Cat in the Hat*

became the prototype for one of Random House's best- selling series, Beginner Books. This popular series combined engaging stories with outrageous illustrations and playful sounds to teach basic reading skills. Brilliant, playful, and always respectful of children, Dr. Seuss charmed his way into the consciousness of four generations of youngsters and parents. In the process, he helped kids learn to read. Winner of the Pulitzer Prize in 1984 and three Academy Awards, Seuss was the author and illustrator of 44 children's books, some of which have been made into audiocassettes, animated television specials, and videos for children of all ages. Even after his death in 1991, Dr. Seuss continues to be the best-selling author of children's books in the world.

My two-year-old son and I have a lot of fun listening to some of our favorite stories in the car, but the performances are a little lackluster. I think Jason Alexander puts the most into his performances, but David Hyde Pierce and Michael McKean are just okay. In fact, since they are the only three voices on the cd, I get a little tired of them. But overall, the cd is enjoyable.

It's nice to see that such an effort was put into making this audio book and properly making up for the lack of animation that is just natural with sound. That lack is more than made up for with creative background sounds and narrators, like Jason Alexander, who read the popular tales with flare and animation in their voices. This is a fine collection to own for anyone who wants to hear the sounds of Dr. Seuss. I'm sure Dr. Seuss himself would be quite proud. Enjoy.

My son loves Dr Seuss but he wasn't as excited about this as I thought he would be. He may like it more the more he listens to it. We haven't listened to every story yet but have enjoyed the ones we have.

I purchased this and "The Cat in The Hat" CD and they are the B-E-S-T thing I've picked up in a long time. My son loves reading and being read to, esp. Dr. Seuss, and these come in handy after I've read the 10th... 12th... 14th book with him that day. He plays these at least 3x every day. The voices (all well known actors) are very well suited to the stories they read and give a great alternative style to "mom's". Plus with 2 CDs in each collection my son never gets bored.

I have always liked Dr. Seuss even as a little girl but, unfortunately my parents NEVER bought us any books, except for the set of books my grandmother gave me. I bought this for Early Childhood Education courses that I was taking in college. Since then I change my major.

I don't know why a previous reviewer found this boring. It's true that ABC lacks much in the way of narrative, but my kids (3 and 5) still seem to love it. The title story, read by Jason Alexander, is great. That one can get a little monotonous to read, but he really sells it. When I read Green Eggs and Ham now, I imitate some of his phrasing of the lines.

Bought this for my pre-K son who loves Dr Seuss. We've all been very happy with this purchase. Be warned that the sound is a little "low;" we have to crank up the volume to hear the speakers. Also wish it were all on 1 CD instead of split into 2. Otherwise, it's fun to listen to while reading along with the books.

These stories are so boring on the CD. Some of the books selected do not work well on a CD and read so straight through it was painful. Where is the lilt in the voice and the bounce that makes Seuss fun? I am not happy this is just sitting in our collection now. Don't buy this. Read the books with the little ones in your life and keep Seuss interesting!
