I love this series! Ok, the books are fun, light-hearted, and easy reading - not thought provoking literature; that said, I thoroughly enjoy reading them and wish that there were another one being published this year. The people about whom she writes are a wonderfully eclectic bunch whose personalities she captures so well that I feel like having an affair with most of them. There are funny, annoying, charming, irreverent, lovable... and they come alive under Ms. Wheeler's pen. There are pages worthy of guffaws (my husband prefers that I don't read Ms. Wheeler's books in bed because my laughter keeps him awake!), of smiles, and of tears - the whole gamut of emotions. Ms. Wheeler's breezy, clear style makes her books impossible not to read in one or two days - they are "feel good" (despite some real sadness, at times) - because I don't want to put them down. I must say that one of my favorite parts of the book was its darkest moment: when she realizes that she's walking on - literally - the scene of the car accident. Her description of it was so moving that I felt like I was walking beside her - with a box of tissues. Please continue writing about your new adventures, Ms. Wheeler, because your readers will want to know where you settle next!

I have read all of Karen Wheeler's books and I love them! Although we have never met, I feel like Ms. Wheeler and I are friends. Her writing is so comfortable that each work can be read as if an old friend is writing a nice, long letter to me. The detailed description of the Spanish and Portuguese countrysides are so interesting and complete that I feel as if I've been there too through the pages

of this book. I absolutely recommend this book and suggest that you read them in order if possible. I think the word 'charming' captures the whole series. I will happily read any books that Ms. Wheeler makes available.

I have so enjoyed this series by Karen Wheeler. I had a feeling that before it even ended that it would end the way that it did. This book was really fun. She got to travel with her niece whom she hardly knew. They had fun in their travels especially in Spain where very little went right! Karen had a reason to travel to Portugal and it was perfect! Please READ IT!

Another bittersweet trip with Karen in her story about her life in France. I like all of Ms. Wheeler's books: I think I have read them all and wish there were more.

I so enjoyed the other books in this series. They had depth. This one was more like a travelogue-good but not as enjoyable for me as the others.

I'm actually still reading this (80% thru it) and I do not want it to end. I've read the other 3 Karen Wheeler books set in France and loved them all but this one is my favorite...It's really good...I'll be super-sad to finish it and hope that Karen Wheeler is working on something new! I knew for a while that this book has been in the pipeline and have been watching out for it.

It was like listening to a good friend sharing her detailed story living in France - part 4, since I have read all three of Karen's previous books. I love her humor, her wit and often times I was smiling while picturing her situation which she described in precise details.

I've read all the books in this series. I really enjoy them and I look forward to her new adventures in her (hopefully) next book.
