One of Dover's most gifted and versatile artists, Marty Noble is the creator of over 200 Dover items, including regular and stained glass books, stickers, tattoos, stencils, CD-ROMs, and more. Marty has also expertly re-created the art for most of the "Color Your Own . . ." series and dozens of our bestselling Creative Haven coloring books.

I preordered this a few months ago but was unsure of what I would get because most, if not all, of the Unicorn coloring books aren't that fantastic. This one IS!! I love Creative Haven and have a ton of their coloring books and this is a terrific addition to my collection. I've already ordered three more for gifts. If you love Unicorns, this is a MUST HAVE! You will not be disappointed!

Really good quality. Great price. Fast shipping

I really enjoy Marty Noble's coloring book designs and am pleased that she has come out with one with unicorns. While the coloring book is based on a single subject, her treatment makes for a wide variety of designs. Some are flowing and elegant while others have a more stylized look to them. In most designs there is a single unicorn but there are others which involve a beautiful maiden or several unicorns. There are even rectangular shaped unicorn mandalas. Ms. Nobel's unique style is recognizable in each of these designs. The designs are detailed (including backgrounds and/or framing.) A few of the designs have small and intricate areas to color. On the whole, I don't think it is a difficult book to color in due to small shapes. The designs present a nice challenge and have plenty of room to try blending and shading techniques as well as embellishments to the original design(s). This is what I experienced when coloring in this book and testing my coloring medium on the paper. 31 beautiful and elegant unicorn designs by Marty Noble. Printed on one side of the page. Paper is medium weight, white, lightly rough and perforated. Glue bound but pages can be removed easily at perforations. Designs stop before the perforations. There is a framing line at the outer edges of each design for a more finished look. The book opens fairly flat by creasing/breaking the spine. Alcohol and water based markers bleed through to some degree. Gel pens and India ink pens leave shadows of color on the back of the page. Coloring pencils work well with this paper. Both wax and oil based pencils lay down good color, layer (same and different colors) and blend well using a pencil style blending stick. Hard lead pencils leave dents on the back of the page. I remove pages or use a blotter page of card stock or several sheets of heavyweight paper to keep ink and dents from marring the pages below.

I own or have sent gifts of about 50 coloring books over the last three years. More and more, the Creative Haven books are looking more alike. Whatever is featured is stuck into the middle of previously used border and other previously seen designs. So it is not the Unicorns that disappoint but rather the repetition by Creative Haven. Since this process is cheaper, I expect it is here to stay which just means I won't be buying as many online. Now I need to see in person if I will like at least half of the book.

I had been so waiting for this book and was really happy with the art work. love and highly recommend.

I love unicorns, so happy Creative Haven has come out one with Unicorns. This is a fun coloring book to color in.

Wow...can't wait to start. Nice combination of complexity and simplicity. I won't get bored.

Nice sketches and good price.
