Venice: Art And Architecture

Synopsis

The entire span of Venetian art - in architecture, sculpture, and painting - from the 13th through the 18th centuries is systematically explained by renowned art historians. If you approach Venice by way of the lagoon, the city appears to be as homogenous as a single building. But as soon as you step into its shadowy alleys, you will be captivated by the palazzi, churches, and private palaces where the eye is drawn to the dazzling stylistic variety of Moorish window arches adjacent to balconies in Venetian Gothic and severe Renaissance facades. --This text refers to an out of print or unavailable edition of this title.

Book Information

Hardcover: 912 pages

Publisher: Konemann; Slp edition (May 1998)

Customer Reviews

I bought this book after an excellent 8 day study/tour of Venice by Road Scholar. I bought this 2 volume book as a gently used book on for a great price. (Which arrived looking unopened, never used.) This is a glorious celebration of the architecture of Venice with many pages of lavish, detailed photos of cathedrals, domes, altars, mosaics, paintings. We had gone to Venice to see the Basilica of St. Marco. The pages on the Basilica are great. So are the photos of many of the other churches. This is a wonderful photo recollection of this great city. I am so very impressed with this 2 volume set. Thanks

Great if you are detailed orientated and want to learn about art and architecture of Venice. I would not consider this a coffee table book as the photos are beautiful but the book is arranged like the educational treatise that it is, but if you want to learn about the art and architecture of this beautiful

city this is where to find it.

Amazing Book.What a beautiful book at a great price. The book came really fast in great condition.

The illustrations and the explanation of this are very good. The information in the book is comprehensive,so I can learn more about the art history of Venice.

Great book. I would buy it again.

I've just got.Thanks,so rapidly release and quite good copy.
