Customer Reviews

I played from Grade school until college. Took a 10 year break from it and came back to playing. It is a great book as a refresher and a great method for new students. I am now using it to teach my son and he's doing great. Get the one with the audio CD... it really helps to play along and hear an example. The CD does both for each line in the book. My son even. Momented on it with the CD.... loves it now....

Great book! Perfect transaction.
