My son need it for school

Good basic book for beginner trombonists. Moves fairly fast, doesn't spoon-feed the student as most of the modern methods are prone to do. Gets them playing like a musician.

Good

working on it

easy to read the notes. My son loves it. He used it in his private lessons class and at home

Was below my skill level but use this book as a reference when I'm forgetting a slide position or the what note is this. Good book for the price.
