Received my copy today, on time as usual! This book on Tiny Art (miniatures) is really an inspiration. Love the way it is divided. There is a section on painting tiny animals, another on tiny Food and Drink, (that taco     looks so adorable, then Karen includes a delicious cupcake with vanilla icing and a cherry on top, then there's coffee and delicious looking donuts.)

There's a section on everyday things and people, and a final section on tiny places! How cute is that? See for yourself. Karen gives good and clear instructions as to how to draw and paint this incredible tiny art work. This is a must for the serious artists out there.

I love this book

I found Karen Libecap a few years ago on Etsy and bought several of her miniature paintings. I was thrilled when I got them and noticed she was as good as Lorraine Loots out of South Africa. She has now published a book with pictures of her detailed drawings and how she actually does it. I am proud to say I own that hedgehog on the cover and if you like these you should look at her page on Etsy~
