Customer Reviews

This 1960 "historical analysis and reader" gathers the writings of the most important Zionists of the time. LJ's reviewer stated that the "stress is upon the men's ideas and works as they relate to Zionism. Although the profiles are brief, they are penetrating" (LJ 4/15/60). This edition contains a new introduction and afterword by scholar/editor Hertzberg. Copyright 1997 Reed Business Information, Inc.

rtzberg /f Arthur /r ed. --This text refers to an out of print or unavailable edition of this title.

This book is first and foremost a gathering of original primary sources material, and as such it is an important addition to any library or student of Zionism. That being said, it is a collection of speeches and writings, and as such it must judged by what was excluded as much as by what is included. To include Rabbi Mohilever but exclude Zangwill, and to dedicate a combined 45 pages to Klatzkin, Ahad Ha-Am, and Berdichevski while affording Jabotinsky and Ben-Gurion only a mere 5 pages

combined, speaks volumes about the authors agenda and point of view. This is to be expected from an author whose view point on the Israeli - Palestinian conflict as well as American Jews - Israel relations were rejected and dismissed by both Golda Meir and Begin. The Introduction has a pronounced Rabbinical, Diaspora, 'civil rights-like' slant and the selected material reflects the authors bias. It may reflect some of the Zionist ideas, but certainly not The Zionist Idea.

Brilliant. There's a 100-page intro, followed by short selections from every major Zionist thinker. Each selection is preceded by a 2-page synopsis of the thinker. Although compiled decades ago, the writings are timeless and the commentary feels fresh. This edition is from 1997, so maybe they did some edits to keep it fresh. This material is just begging to be read by anyone with even the vaguest interest in Israel. History repeats itself, and by reading this, it becomes clear that the struggle for the basic Jewish right to self-determination continues to this very day. The need for a Jewish homeland and the conflict in 2011 have both been ongoing since the inception of modern Zionism. Read for yourself. Make this available on the Kindle!

This remains the most comprehensive collection of Zionist thought, and the introductory notes to selected writings from the various schools of thought within the movement are clear and well written. One caution: it is a work for college-level or graduate level study, and not appropriate for younger readers.

This is an excellent compilation of classic writings of the pioneers of Zionism. I gained so much insight into their thoughts and writings . This a must book for anyone interested and involved in Zionism.

This is a good product and I think I will use it forever. I like it very much, thanks very much

textbook. Although it costs less than through the school bookstore, when you add in shipping and the wait, it constitutes no real savings.

This is simply the most important book on Zionism written. The introduction of 100 pages is very dense and brilliant and the following prime source material, selections from all the early and later Zionist thinkers of vast merit.

the a hundred page introduction of this work is absolutely essential for people of every ilk who want to understand the whole Zionist ideology in one fine, easy-read scoop. The rest of this work is a presentation of every important leader of Zionism in the course of 19th and 20th centuries with a short description of the writer's life, endeavors, and accomplishments in the beginning of every excerpt. This book serves on two fronts which makes it into a bona-fide classic of Zionist literature: (a) someone who wants to thoroughly understand the conception of the movement must read this book because without it even fine, scrupulous research is incomplete. (b) someone who wants to cursorily scan the movement to form a capsule of the Zionist idea in his mind for all practical intents and purposes. I'm not a Zionist, but this book gave me a clearer perspective of Zionism. Now I'm confident to vouch that I know precisely what Zionism holds and so should you!
