Nailbiter Volume 1: There Will Be Blood

Synopsis

"Where do serial killers come from?" and why has Buckaroo, Oregon given birth to sixteen of the most vile serial killers in the world? NSA Agent Nicholas Finch needs to solve that mystery in order to save his friend, and he'll have to team up with the infamous Edward "Nailbiter" Warren to do it. Joshua Williamson and Mike Henderson deliver a mystery that mixes Twin Peaks with the horror of Se7en! Collects Nailbiter #1-5.

Customer Reviews

What would happen in a town full of serial killers? Nailbiter takes a look at a town where a large percentage of the population has become or has the potential to become serial killers. The most famous one was known for chewing the fingernails of his victims. After receiving a mysterious phone call from an old friend, FBI agent Nicholas Finch heads to Buckaroo, OR to find out what is going on. Upon arriving, he learns that his friend has gone missing and some strange incidents are occurring in town. Finch's search for his friend leads him deeper into the town history and an investigation into the proliferation of killers. This plays out like a cop drama in many ways. The main characters we see are associated with law enforcement or serial killers in some way. The town itself becomes a major character in the story. There are some twists along the way, which help move things along. One aspect that I particularly enjoyed is the unveiling of some of the killers from the town's past. Each one presents a unique MO and notoriety in the town. One of the residents even set up a shop dedicated to memorabilia from the killers. The art helps pull the story off quite a bit. I

feel like it grounds things within a story that has the potential to be very over the top. The restraint with the art makes some of the twists much more effective.

I bought this title just because i was curious and it looked like a good read. So i started reading it and i could not put it down after that. The story is very interesting and keeps you drawn in wanting to discover the mystery that only increases with literally every page being turned. I highly recommend this title to my friends and fellow readers. I am buying the second volume ASAP!!

Loved it so hard. Straight up 6 to midnight. Very original comic concept and wonderful artwork. Can actually create suspenseful moments, despite being a medium with no secrets except for what's on the next page.

Didn't know what to expect getting into this series. Have to say that I really enjoyed it. Characters are interesting, plot moves well and the art is really good. Ordered the second volume 5 mins after I finished this volume.

I received the graphic novel on the 15th. It arrived super quickly, and in mint condition! The storyline itself is...quirky. It's definitely no Crossed, but it's no Low, either. I'm only a few pages in, so I can't say much for the story yet, but the artwork is wonderful! It has manga-like linework, with the bubble-art style of nu-age horror.

Not bad. A bonafide mystery. I'm going to keep going.

I was told by multiple coworkers to read this and it didn't disappoint. Unique new story, great writing, and wonderfully creepy artwork. Thumbs up!.

Fast-paced, plot-driven, mystery horror tale with well-developed characters and excellent art and coloring. Intense, engaging story. Highly recommended.
