Average Customer Review: 4.0 out of 5 stars 26 customer reviews

Best Sellers Rank: #82,667 in Books (See Top 100 in Books) #65 in [Books > Travel > United States > Northeast > New England](#)

Customer Reviews

A nice enough map, but don't depend on it to help you find your way to Bar Harbor. Apparently Michelin doesn't consider northern Maine to be part of New England!

By combining the Hudson Valley and New England this is the perfect map for our fall leaf peeping trip. The size needed to get the road detail makes for a cumbersome size, but it's good to bring along.

This is a very large map of all of New England and should be labeled as just that. The Hudson River Valley is on the map but there is no enlargement or detail whatsoever. If you need a map of the Hudson River Valley, you would be better off with a map of the state of New York than this monster.

Exactly as advertised, good quality map. My husband used it on a trip from the NYC metro area to Laconia NH, and had no problems.

Big and details too.

Like the Michelin USA West map, this map is excellent. It gives clear detail and is easily read. It helps any person that is not familiar with maps to better understand the geography and political borders of the region.

Gave me all the info I needed. I was not familiar with the area but could use this instead of GPS on larger roads and highways. In the cities and smaller communities, one will need a GPS or another map.

We are from Oklahoma and have never traveled east. This gave us the big map to plan our trip. We take with us, but also need some state maps. Am getting some of those free online.
