Customer Reviews

This is a really poorly copied script. Contains only pages 13, 14, 15 and 16 of the original book. HUGE disappointment! Couldn't even read some of the words.

Not at all what was expected. Terrible typeface, 4 pages long.

Perfect!

This is a small copy of DD's writings. So don't look for anything new or earth shakin. If you have all his writings you do not need this since this is copies of some of his writings.

This booklet is an article which summons the basis of chiropractic and clarifies the relations

between the Philosophy, the Science and the Art of Chiropractic.

People... this is NOT a paperback.. it's an \$8 TWO PAGE article, glossy pamphlet. While I'm enthusiastic and appreciative about the indispensable knowledge contained in the Chiropractic science; there could've been a more specific description about this pamphlet. I bought this with the impression that it was a paperback book. $\tilde{A}f\hat{A} \tilde{A} \hat{A}_j\tilde{A} \tilde{E}\tilde{o}\tilde{e}\tilde{A} \hat{A}\bullet$

Didn't bother to read the reviews before purchasing. This was a complete waste of money for only a few pages. I can't believe they even took the time to bind this to sell as a book. I will be returning this.
