Customer Reviews

The title is deceptive. This is religious new age hipster preaching. Trying to turn the listener into a bleeding heart, "sensitive" man who gets in touch with his "feelings" and use magical rituals to connect with a woman.Terrible.

I really enjoyed this book, and took so much away - I will likely read it again.

I found this book to be absolutely amazing. I found this book from a man named Elliott Hulse. This book gave me great insight into why I feel certain ways in different interactions with women and the world itself. The book gives you many examples and descriptive insight as to why men feel a certain way in certain interactions in life. Reading this book is a MUST. 10/10

Life-changing perspective on men and women that totally makes sense. Too much information to absorb. Expect to highlight and reread over and over. Can be used as a relationship Bible.

Stop trying to force fit yourself into the modern gender-neutral society. Be a man! Just remember to be polite & respectful. Good reminders in this book. I would have liked more real-world examples to go along with the spiritual concepts, but I did get assurances that it's not only okay to think & feel like a man, but it's also better for me, the women in my life, and the world.

This book changed the way I perceive women, and changed my life (I now coach other men on their relationships with women). I buy a copy for every male friend I have and give it as a gift - my way of trying to change the world a little bit at a time. Men, don't hesitate - READ THIS BOOK!

This book is such a great help when coming to just life, love, and spirituality in general and in detail. I love how bluntly and straight forward David is :] Divine Masculine and Divine Feminine definitely must maintain themselves individually before being with their life partner. And if you're already with your life partner I suggest this book to you. It will only help improve your connection with your spouse and other women even more! I suggest this book for all men and even women! It is such a great book! Women, you will feel more understood. Men, you will be so thankful and appreciative of this book that you will have such a different perspective and new happiness to your life. :] David put things together perfectly for me and my relationship with his words in this book. Not just with my fiance. With all girls period! I was much more able to understand exactly where women are coming from and what they mean when they say things out of there mouth's that most men just don't get or get pissed off/angry at. I never got that way with women but I am much more willing to accept the gift that all women have to give me in my daily life. LOVE. The feminine sure do have so much unlimited love to give out if you are only willing to accept it :]

Was recommended this Foot Book from a friend period was a little skeptical about it after reading a brief synopsis of what it was about. Finally gave in and decided to give it a try. Now I am happy to say that this will definitely be one of my top 10 in my personal Library. A great read for someone looking to get a better understanding of the opposite sex.
