The Book Of Enoch

Synopsis

The Book of Enoch is an old composition considered a pseudoepigraphal work (a work that claims to be by a biblical character). The discovery of the texts from Qumran Cave 4 has finally provided parts of the Aramaic original of the .Book of Enoch. This discovery is very important because it eliminates doubts about the Book of Enoch, which was considered a medieval forgery in the past. The Enoch fragment found (4Q201) was copied around 200-150 BC.

Customer Reviews

I've read this book twice online but wanted one I could have in my hands. The cover is amazing; it's almost like suede leather and gives that antique look which is so appropriate. No serious Bible student should be without this amazing book. I've found literally dozens of verses that are directly quoted in new testament, not just the obvious two.

liked it

This book makes us see far beyond of what who we are. I have ong with my wife and a close friend experience certain phenomena. We are not alone. We just need to make the right choices.

for mom.

Great book. It has the same feel as reading the bible. However it is probably too far fetched for certain christians. I highly recommend the book to someone who is a little open minded and wants to dig into God's word a little more.

great shipper great gift

Reading this makes one consider why it was not accepted into the Canon. A magical mystery tour of sorts. Good to read if one is seeking akternative Scripture.
