Customer Reviews

SARA CALIAN has lived in London and walked the city's streets since 1998. She has written for The Wall Street Journal, the Financial Times, and has worked as a communications consultant.

Used for three days in London. Map is detailed and clear. Division of the book by City areas made it very user friendly. I could see what areas of the City interested me and then concentrate on what is of interest in those particular regions. I think that we explored London much more thoroughly and efficiently than we would have been able to without this guide- especially in the three short days we had. The book is also well cross-referenced so that if you have particular interests (such as shopping or museums, etc.), you can see where in the City those can be found. Lots of colorful pictures too. Highly recommended!

This is going to help save us time and maximize the number of sites we see on our trip to London later this year. This item arrived quickly!

So totally enjoyed this magazine. The next time I go to London, this magazine shall accompany me. I received this magazine very quickly which thrilled me as I could read it sooner. Thank you.

Pointing out places to see in London that we never came across in five previous trips. A great book for our upcoming trip

I thought this was okay.

Good insights on day walks in London

Very Helpful

This book was very helpful in a recent all walking week spent in London. Although I didn't use it much while we were there I used it to plan our days prior to the trip and then took pictures of certain pages for reference.
