Exciting recipes! I've wanted to try dump recipes for a long time, but I just couldn't use most of the ones I found because they were either sweets or carb laden casseroles full of noodles and such. This is a great cookbook for those of us trying to go low carb without feeling deprived. I want to try everything I've seen so far, and I tend to be a bit picky, usually. Thanks for letting the low carb crowd get in on the dump meal craze. Very helpful book! Really worth purchasing!

Great cookbook! There are a lot of informative and healthy recipes that we will be using from here. Low-carb eating requires meal planning and prepping. A Dump meal is a meal you can dump in a single pot, dish, or bowl and then forget it. This book is just exactly what it claims to be: a bunch of easy one-pot slow cooker recipes, low carb.

Great book. Great recipes. Glad I added it to my collection. :)
