Everything You Experience When Unconscious, Revealed. : The Breakthrough Documentation Of The Unconscious Human Visual Experience

Synopsis

Since the beginning of time, humanity has been at battle with the unknown. The inner working of the unconscious mind has bewitched the most critical thinkers of our time. This stalemate has finally been brought to resolution with groundbreaking new records and findings in a way everyone can understand. The mystery of unconsciousness has now been decoded by scientists using the latest methods of neuromorphic computing and Bayesian integration. For the very first time, Science has been able to detail how astral projection and neurotransmitters actually affect your states of consciousness. This breakthrough documentation of the unconscious human visual experience is an incredible revelation that will transform the lives for all who experience it. In this book you will learn what you really experience while unconscious. The first few pages begin to detail the moments of consciousness suspended. Deeper in this work you will explore the neural systems, visual processing, and brainwave synchronization of the human mind at rest and in direct relation to the blackout periods we experience through all of life. Everything You Experience When Unconscious, Revealed contains real visual experiences from everyday people like yourself who have used unconsciousness to achieve health, wealth, and happiness. Now is the time to get the inside look at what you experience when eradicating disease, acquiring massive wealth, overcoming obstacles, and achieving what many would regard as impossible all while unconscious. "Practical. Straightforward. True to my personal experience, This book is a must read for all who are intrigued by the unconscious." ~ Thomas Midgley "I have never read something that details my own visual experience so well in relationship to God." ~ Pope Hilarius
