Customer Reviews

I like music to be as close to the original as possible. I found this piano transcription did a decent job overall. I purchased this to help me study some of Williams orchestration (chord structure) without having to figure out all the chords by ear. It's a very good 'skeleton' for these purposes. For pianists who love John Williams, I don't know of any other books that will give you a collection like this.

Great book for any John Williams enthusiasts. Sheet music is close to original works and done very nicely. Somewhere in my memory is awesome as well as the Indiana Jones theme and Superman, highly recommended!

Every great theme song he ever wrote. Love this book. Has chord charts and is easy to follow.

I bought it for my piano student, and he loves it! He's a huge fan of John Williams.

Good seller and item.

Great! Music is suitable for performing

this book has a great assortment from John Williams--some of the arrangements are challenging, but most of them are moderately difficulty--many hours of enjoyment.
