Customer Reviews

Avant-Guide's New York City is a witty, sometimes gritty, and always entertaining and informative guide that chomps into the core of what the Big Apple is all about. With a street-smart hipster's attitude, New York City covers attractions in each of New York City's five boroughs, as well as Manhattan's particular neighborhoods, focusing on the personalities that define them. Short essays introduce us to Cynthia Rowley, a clever fashion designer; David Herskovits, co-editor and publisher of PAPER magazine--"New York's hippest monthly

This is part of a new series of travel books designed for "cosmopolitan travelers," and the general format is more active than that of many travel books. Pages intersperse black-and-white photos cut into squares, circles, and triangles with text highlighted in black, yellow, and green. There is a lot of text, with topics subdivided into ten main areas: Engaging, Navigating, Sleeping, Sightseeing, Exploring, Exercising, Buying, Eating, Entertaining, and Planning. Descriptions are more biting than usual, e.g., the Guggenheim Museum is called a giant toilet bowl, and a "Tourist Traps" section is included. Entertaining includes Gay/Lesbian, Live Folk, and Sex, illustrating how inclusive this book tries to be. The cover is bright and appealing, but the text-intensive content may deter many. In addition, there are few maps. This book may be most useful for those already familiar with the city.

Consider buying for large public libraries located near New York.?Alison Hopkins, Queens Borough P.L., Jamaica, NYC

The best travel books I have ever read!

Good range of resource info for everything from art, food, fashion and beyond. Has a good design bent to selections included.

This is the guide for those who don't want to look like tourists. It's smart, funny, and insiderish without ever sacrificing usefulness or practicality. This is *the* guide to buy if you are going to visit the Big Apple. Looking forward to many more city books from Avant Guide. Check out their Prague book too!

when we first scanned this guide we thought perhaps we were too old to appreciate it ">Read more

I Just returned from 1 week business/pleasure visit to New York and I found this guide full of good recommendations and descriptions were accurate. Better than Lonely Planet or Time Out's, which I also bought. Quite a useful guide with plentiful restaurant, watering hole and sight-seeing suggestions. It's replete with valuable information about attractions, hotels, eateries, shops, spas, etc. Beyond this, however, the layout is terrific, and the book is remarkably easy to use as a result. The maps, in particular, are helpful. I'd definitely purchase an Avant Guide guidebook again. I am happy to say that this book was by far the best single-city guide I used.

I can fully recommend this cool guidebook to anyone who wants info that gets right to the point. I was traveling around New York and bumped into two other travelers with other guidebooks that made no mention of lots of things that are in here. I told them this book is great, and now I'm telling all of you!

Honestly, I've been living in New York for the past two years, and I think I have a reasonably fair grasp on its nightlife, restaurants, what have you. Not only did this book have a listing of some of my favorite spots, but it talked about some places I wish I'd known about earlier. Some good stuff here.

I love to travel and I love guidebooks. This one is the best series I've seen. It makes me laugh, has a great senseability about the places I like and really feels like it was written by a friend. I never write these reviews, but I'm inspired to write this one because the book is so good.
