Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.

All I needed was a lightweight, water-resistant guide to identifying the common birds I saw in

Ireland. This pamphlet-style foldout guide has very good depictions and descriptions and is plastic coated so you can have it in hand as you stand in the rain, a not-unlikely event if you're birding in Ireland. In-depth descriptions, habits, etc I can look up later. This is so handy!

A really excellent pocket guide. I'm planning a birding trip to Ireland and this will be a great addition to my pack. It's just the right size for carrying as well as printed on good stock that a rainy day will not damage.

Great for traveling, they are small and easy to pack and easy to carry. Include the most common birds so I was able to identify the birds in the city.

very handy ,portable and waterproof

My son loved having this book for our recent 16-day trip to Ireland.

Handy laminated folding guide to the birds you're most likely to see.

So fun to have a little guide handy when I came across birds on our travels. Our whole party would check the guide, and none are bird watchers!

Good birding guide- used it on Our Ireland trip
