Math Minutes, 4th Grade

Synopsis

Each book in this series features 100 Minutes to help students build basic skills, increase speed in math operations, and strengthen problem-solving skills. Each Minute consists of 10 problems of varying degrees of difficulty that incorporate a variety of skills. Each ten-problem reproducible can be used as a learning or testing tool.

Customer Reviews

These books are excellent. As a former high school math teacher, it's important to me that my children build a strong background in math while in elementary school. These books were the perfect summer review. (There were a couple concepts the kids didn't know, but most parents would be able to show them how to do these problems.) Each "minute" is quick, even when the kids don't finish within a minute, we have them finished, checked, and corrected within 10 minutes. It reviews a variety of concepts at each grade level without being burdensome. I will probably continue to order these for my kids each summer, although we've only done the odd minutes so my younger child can reuse the older child's book!

this is right on time for my son for school thank you for a great book

3rd grader who says she isn't challenged at math really enjoys this book. Variety of questions, 10 per page (arithmetic, word puzzle, geometry, fact tables). Scorecard and answer key as well.

Like it

My son loves this Math Minutes! He does 5 pages a day!

I use this as a math warmup for my home schooled 4th grader. We absolutely love it. I like how it mixes in lots of different operations to keep all of her math skills sharp. I also use the 6th grade version of this book for my son.

This is a great product to help cover general math skills. I use it in an elementary resource room as a daily warm-up and it is a great way to start the day. Granted, some of the skills are too challenging for the kids, or they just don't know the drill, but it is a good way to assess what they need practice on.

Perfect for summer school work. My kids would do one page over breakfast. Helped keep their skills through the summer. Will definitely keep buy the other grade levels as they grow.
