## Customer Reviews

I learned a lot thank you for sharing you personal experiences and I loved the poems. There was a point in my life where I carried all the pain from past relationships because of that nothing worked. I learned to love myself before I could love anyone else. Your book really helped me see it from a male perspective.

This is a book I will read over and over as I continue on my journey. Self-love has become a passion of mine after going through several years of toxicity and negativity. I became a person I didn't

recognize anymore. This book found me at a great time and I have put so many of this quotes on my vision board. Buying this book will help you hedge several thousand dollars of therapy bills :-)

This book is fantastic! Mr McNutt is spot on with his empathetic style. The reader feels an immediate kinship with him. He pulls no punches with respect to owning your feelings and behaviors. I highly recommend this book. It brought me rare peace after a recent heartbreak.

Just started reading this book and have watched YouTube videos from this astounding author and I am ready to fall in love with the process of loving myself. This is just what I needed to start off a positive year for me.

As a 19 year old college student, this book gave me a new perception of my life. I struggle with not being able to plan every aspect of my future, but this book has shown me that I should enjoy the journey.

Interesting ideas - nice presentation - could have used better organization, but overall a good read...

Everyone should read this book! It gives you a lot of perspective not only of yourself but of those you keep close to you as well. You'll gain an abundance of knowledge. A must read!

I love this man's work! ! He has make me see my past in a totally different way. ...
