Customer Reviews

After listening to the book,I found that it had photos,so I downloaded it as well.I plan to travel to MadaGASCAR AND NEED TO LOCATE SOME OF THE WONDERFUL PLACES DESCRIBED.VERY INTERESTING WAS ALSO THE OLD TABOOS and the description of the origins of the inhabitants.And something I had never heard of,a giant bird 7 times bigger than an ostrich.The colours of the mile -high capital at sunset time is remeniscent of Uluru

There is an Awesomesauce of mystery concerning this work. Indescribable pleasure mixed with watermelon rinds leave one to believe persnickity. Dinosaurs also in the fray absolve different ramifications.

Book written quite many years ago but seems to be very actual. I have been having opportunity to verify it.
