Customer Reviews

I haven't written a review in a while but couldn't pass this up. Mrs. Hathaway has been one of my favorite authors for a while and when this 5 volume offer was made I just had to have it. It did not

disappoint. She has good plots, clean romance and enough religion to make sense without preaching. I recommend it highly.

This series had me spellbound, even though I had read the first three books last year. I turned right around and got volume 6, but my curiosity is still not satisfied. Waiting for the next episode!

This area is actually about two hours from my home town, where I was born and raised, and still live now. Truly loved the series, and the continuity of the story lines was wonderful to follow! Each character was brought to life and very believable in their part of the story. The author did a great job of adding in smaller characters who carried good sideline parts. I kept thinking this would make a great movie!!

I really enjoyed reading each of the books in the series. I liked how each was an independent story and could be read that way, although reading the series is wonderful and truly connects the characters there is enough detail for a reader picking up anyone of the individual novels to become thoroughly enthralled! The only thing I would like to change is the incomplete and abrupt endings to some of the storylines. Happy reading

I was in the mood for some easy happy ending romance and this fit the bill. I also really enjoyed that the characters were carried through the books so I could continue to learn more about them. I like a little more "God talk", but God was woven through the stories and the redemption of the cross was explained in the fifth book. Thank you! Now back to my mysteries!

Even though each book had its own story they were connected with several same characters. The christian examples the people set were very good. Through all their struggles there was always a happy ending.

Just finished these 5 books. Didn't want to see it end. Some very helpful stories. It deals with things like, murder, big business, DUI manslaughter, loneliness, dementia... They were all good and kept my interest the whole way through.

I loved these books and can't wait to read the next one. Mary Jane Hathaway is a great writer. I think she should be among the best of female writers.
