This likable character and his animal friends are back in one of their best outings since *Bear Snores On* (S & S, 2002). While walking in the woods, Bear gets lost, and the other critters begin to worry about him. They form a search party, find their friend, and return to the lair to cuddle up and fall asleep, and finally, "the bear feels safe." Wilson's rhyming text moves along at a steady clip, with only the smallest missteps in meter, and the repeated refrain begs for audience participation. Chapman's acrylic illustrations perfectly mesh realism with emotional expression; the characters show their concern for Bear, whose fear is almost palpable. The combination of full-bleed spreads, single-page paintings, and smaller insets keeps the story flowing

and encourages page turns. Bear's cozy den, painted in warm oranges and browns, contrasts effectively with the outdoor scenes, done in blacks, blues, and grays. The reassuring story is simple, but speaks to children's fears and the safety they find with the people who care about them, creating a comforting and accessible forum for discussion. With its large, richly colored illustrations, this book will work equally well one-on-one or in storytime, and listeners are sure to request repeated readings. •Amy Lilien-Harper, The Ferguson Library, Stamford, CT Copyright © Reed Business Information, a division of Reed Elsevier Inc. Good book for young children who have fears and have a great network of friends and family. I do wish the book was gave more strategies on how to conquer your fears and comfort yourself. The only theme it discusses is that it is ok to be scared and you need to lean on friends and family. But some children don't have a support system. That is why I wish it gave better examples of coping skills for feeling scared.

We LOVE Bear books and have been collecting them here and there. I was so excited to see this one marked down, I purchased it immediately! Unfortunately, when I took it out of the box I noticed a smudge or something on the front (like a sticker had been removed) and some sort of scuffs on the back. Very disappointing.

Adorable book! My four-year-old loves reading all The Bear Books.

My 2 year old son loves weather, and he really enjoys this book. It is very well written.

Great books for a young reader...we have them all.

My 2 year old son has all the bear books and we love this one. We started out with Bear Snores On, which I've memorized word for word. Now he's memorized this entire book and tries to repeat everything per page in his own way. It's so darn cute and has been worth every penny and more. All the other books are great too, but he always seems to grab these two the most.

Love Bear books.

Hard cover/page book is on the "big" size for a 2year old hand. The stories and pictures are great!
