The Ancient Egyptian Book Of The Dead

Synopsis

The Book of the Dead is the name now given to a collection of religious and magical texts known to the ancient Egyptians as The Chapters of Coming-forth by Day. Their principal aim was to secure for the deceased a satisfactory afterlife and to give him the power to leave his tomb when necessary. Copies of The Book of the Dead written on papyrus rolls were placed in the tombs of important Egyptians, each roll containing a selection of chapters. Many examples have survived from antiquity, dating mostly from c. 1500 BCE-250 BCE. In this volume, the text translated by the late Dr. R.O. Faulkner is that found in the papyrus prepared for the scribe Ani which is one of the greatest treasures in the British Museum. The vignettes are taken from the many finely illustrated copies which are preserved in the collections of the British Museum. --This text refers to an alternate Paperback edition.

Customer Reviews

"Through this edition of the most popular and long-lasting funerary documents of Egypt emerges much of the character of her people. Through it also the student at home and likewise the tourist visiting the Theban tombs should be greatly enlightened, even if much of the religion of Egypt remains tantalizingly obscure." Carol Andrews took Falkner's work and Americanized it. She also toned down the heavy Christian analysis. I find this version much easier to read. It has beautiful photographs and follows the tail of Ani as he descends into the underworld...

its basically the worlds oldest prayer book
