## Customer Reviews

This December Diamonds is a gift - Love the busty girls

Frankly, I was never a big fan of spiders, snakes or anything that crawls and bites. In fact, I am quite afraid of them to tell you the truth. I would never buy a book like this for myself. My son was doing a school project about spiders so we purchased this book on . It turns out to be quite informative, fun to read and big help for our project.

Never ever will I come close to any spider again, or a snake, or a frog. This informative book is good to read, beautiful images and vitriolic fun to read. I can recommend this to any reader who wants to know more about the way some animals protect themselves.

I think it's a great book for kids to enjoy. My son seemed to like this book, he is 9 years old.

book is fun with facts about deadly animals that you should not mess with and should not touch nor eat.

This is full of facts it's short and its quite interesting and you learn a lot about deadly animals im a read it again
