## Customer Reviews

I will make this short and sweet. This is a really good book and its composed by J.J.Johnson. If you can find the recording for every song listed in the book, you can really benefit from it. But even so, this book is challenging and important for all jazz trombone players, and it contains points you can use on your own improvisations. All in all, this is really helpful! Great buy!!!!

Good transcription book, but where are half of these tunes? They are difficult to look up and find so you can hear the ACTUAL solo that was transcribed. If you're going to make a transcription book, use tunes that EVERYONE knows or can at least find easily. The transcriptions were fine, but locating the tunes made it a terrible buy. Buy this book of solo transcriptions if you have these tunes or can locate them easily.
