Customer Reviews

I have read a lot of romance novels and I love a good plot. This book series had everything I look for and love to read and highly recommend it! In some romance novels all you read is sex but this one had a great storyline and a great realistic balance of extra curricular activities.

This was a great book. I enjoyed every page and I was so grateful that I had the opportunity to read the whole story and didn't have to wait for another part of the series. I was more than happy to pay a nominal fee for that privilege. It seems that someone got the message that people are not crazy about reading parts of the series and to have to wait for the next installment. I highly recommend this book and I will be looking for more books by this author.

This box set, which should have been one book, was completely what I love to read. No dominance. No denying love. This book was about a man who had come from money, could buy anything he wanted but grew up not really knowing what love was because his parents were rich and socialites. Him and his brother were raised by their nanny. So when his smart mouth assistant, who lived in a car with her mother until she was sixteen, started getting under his skin, he finally gave in and had sex with her. And of course, once was not enough. I loved reading with how Cole fell in love with Abby. Ms. Cross did an excellent job in writing how each felt, the love scenes were written like it should be, something meaningful, something precious. Not what you read so much now with male dominance pounding his love to oblivion. I loved how she wrote Cole's character. He is exactly what every man should strive to be like. Never taking his partner for granted and showing how much he really loved Abby. Something he never really had. He never fought it, he embraced it. The only thing that seemed off in this was their break up. Yes, I know we need to have a little angst and that's fine. The reason was just a little weak for me because Abby is such a strong, level headed woman that I couldn't quite get how she thought that Cole had used her. Especially after all they had revealed to each other, shared and had become physically closer. But it all worked out and we got our HEA. I would definitely read more of her work if they continue in these incredible love stories. Thanks Ms. Cass for bringing true romance and falling in love back in this series.

There is nothing new in this serial about a billionaire's obsessive attraction to his beautiful assistant. Of course, she has strong feelings for him that she denies because she believes them to be futile. Abby is convinced her handsome, rich, intelligent and suave boss is beyond her reach. Cole, one of the most sought after bachelors in the country, desires Abby. However, he refuses to act on his desires. She is an employee and he never mixes business with pleasure. Readers of this genre knows where this going. Cassie Cross's talent lies in the manner in which she takes this typical plot and adds interesting twists. These twists keep the reader involved with the characters and the situations in which they find themselves. It does not hurt that Ms Cross also a talent for writing great erotic scenes. Oh boy, does she keep one blushing and panting as they read this tome!

It is easy to fall in love with this series. It's nice to see when the rich billionaires fall in love with the simple women instead of the ones that you find in magazines that are superficial. This book gives us simple women that we can achieve the man of our dreams even if it doesn't seem possible. Until Next Time.....Tabi

The only negative was the predictability the the writing. The writing layout is the same for many romance stories. After that, I did enjoy the alpha male character and leading female who played off of each other in fun ways.

This set was fun to read. It was like a fairy tale come to life but with the modern day problems. Too bad we all can't find a billionaire with a heart of gold like this one.

This was a great series. I would recommend this to any romance reader. Abby had a childhood full of love and knew she was loved and then lost her mother and most of the things they had. Her friends became her family, the ones she could depend on. She meets Cole the most eligible bachelor and millionaire and then it begins. Can she forgive him or will he loose her?
