Core Curriculum For Primary Care Pediatric Nurse Practitioners, 1e

Synopsis

2007 AJN Book of the Year Award Winner Written by expert pediatric nurse practitioners, this resource is a fully endorsed compendium of essential information. Using an easy-to-use outline format, it defines the parameters of the specialty by outlining the entire scope of PNP practice and covers everything in the Pediatric Nurse Practitioners (PNP) certification exams. In light of the increase in the number of PNP programs and students seeking certification, Core Curriculum for Primary Pediatric Nurse Practitioners offers the big-picture view that every PNP needs. Authored and endorsed by the National Association of Pediatric Nurse Practitioners (NAPNAP) and the Association of Faculties of Pediatric Nurse Practitioners (AFPNP). Chapters that cover the continuum of PNP practice, such as the Role of the PNP, Wellness Issues, Growth and Development, Genetics, diagnosing and managing Common Illnesses and Chronic Conditions, Pediatric Emergencies, Pharmacology, and Treatment Guides. Concise outline format is accessible and user-friendly. Covers all content on both the ANCB and ANCC certification exams

Customer Reviews

This text provides a great content review of all the major topics and body areas tested on the PNCB Primary Care certification exam. The information in this text is a useful companion to the book of questions and together they provide a solid foundation for reviewing for the exam. I highly recommend if you purchase this book to also purchase the book of questions with the similar title.

Good study info to prepare for the certification exam. Liked that it had a companion book to go with it that included practice questions

Concise, comprehensive standards of care

This a wonderful reference book, but please don't study for the pediatric boards using this book. I spent months studying from this book, and it did not cover anything that the boards covered! It was time wasted on such an expensive exam!

On time shipping and, brand new!!

The "Core Curriculum..." should be at the top of the list for all Advanced Practice Pediatric Primary Care Nurses. This learner selected the book as an excellent resource for preparing for upcoming PNP certification exams!!
