Fifty Shoes That Changed The World (Design Museum Fifty)

Synopsis

Peek into history's shoe closet with this passionate look at the most important footwear in recent times. In the modern world shoes don't just keep your feet warm and dry—they often communicate a message about the wearer. Join the Design Museum for a look at the fifty iconic shoes of the last 150 years, beginning with Frye Boot in 1863. Learn how a doctor's ankle injury launched a boot (Dr. Martens) that became the symbol of a generation's defiance and how an immigrant Italian plucked the name Tod's out of the New York telephone directory to define the driving shoe that perfectly encapsulates the American dream.

Customer Reviews

London's Design Museum is the world's leading museum devoted to contemporary design in every form from furniture to graphics, and architecture to industrial design. Since its opening in 1989 it has worked to place design at the center of contemporary culture.

This item was a disappointment. It came late, and when i received it it was bent and damaged. The actual hard book cover to the book was warped, bent backwards because all they packaged it in was a thin sleeve. Thus, the pages were bent and the book cover edges were damages as well. I was very disappointed. It was a simple purchase: a small hard covered book, less than 50 pages and they I could not a guaranteed on time arrival and and an in good shape item.

~Written by RC's wife K* (who looks fabulous in heels --RC) There are lots of shoes in the world - past and present - that are AMAZING works of art and engineering design -- though no doubt not entirely comfortable to wear. Unfortunately, most of them are missing from this book. The majority of footwear shown here is average at best, and simply don't live up to the title. Too bad, I was really looking forward to having a great time browsing this book. I sent it back for a refund. Not recommended.

Had a nice collection of shoes for referencing. Using it more as reference for company library. Every designer should get it especially at the price it was offered.

a perfect gift for the shoe lover!

Interesting!
