Flower Spirits 2014 Wall (calendar)

Synopsis

One of only a few radiographic photographers practicing today, Steven N. Meyers uses x-ray photography to capture the texture and details of flowers in invisible light. To obtain these effects, invisible to the human eye, Steven uses supersensitive, large format film. His luminous images have been enhanced with digital color.

Customer Reviews

If you appreciate looking at everyday things from a new perspective, being shown the beauty in details, then I highly recommend this calendar. Every tiny detail is magnified, from the veins of the leaves to the fibers of the petals; it's amazing.

This artist/photographer photographed the flowers in a special way to make them look like thin, ethereal glass. Simply breath-taking! Every month was Amazing. I will SURELY buy this, again, next year for myself & more for gifts!!! Can't wait to see what he does for 2015!

This stunning calendar features the radiographic art of Steven N Meyers. The pictures are brilliant - a unique art in subtle tones. And if you still use a non-electronic calendar for appointments and significant dates, there is enough room to make small notes for each date.

The preview pictures give a good sense of how lovely these photographs are... and they're even more beautiful up-close! Love it!

I was struck by the beauty of this unusual calendar. I gave it to my daughter's mother-in-law for Christmas. She loved it too!

My mother in law loves the pictures of these flowers. She loves the detail and clarity of the pics. She is a painter and loves to paint from them.

I've been fascinated by Mr. Meyers' radiographs of flowers, and the color tinting really brings them to life.

I buy these calendars every year. I love the way this artist captures these flowers. These photos are unique and Gorgeous!
