Gift for my nephew who is 7 and he immediately opened it and started putting it together. Needed a little help with the pieces (even I had a little trouble putting them together) but overall it was a good buy. He still plays with the model and reads the book. Just know that the pieces can give you a little trouble when trying to fit them together.

Nice

love it

I bought this as a gift for my husband who loves Star Wars and doing little projects like this. The pieces of wood are very intricate and are marked to show how it can be colored (does not come with markers or paint). The book itself goes into more detail about R2-D2 which I know he'll enjoy because he likes reading about the Star Wars universe as well. The sleeve with the wooden pieces in it is just that. It slides off of the actual book and does not tear out, damage, or take away from the book in any way. Perfect for any collector.
