Modern Losing Trick Count (Master Bridge Series)

Synopsis

If you want to bid accurately and achieve greatly improved results at the bridge table, you have to master the Losing Trick Count. It is a tried and tested method of hand evaluation which has stood the test of time. Ron Klinger, famous international player, author and teacher who has more books to his credit than many players have had good hands, has brought the LTC up to date by relating it to modern systems and conventions. Now in its eighth impression since original publication, this remarkable book is set to hold its place as the standard text on the Losing Trick Count.

Customer Reviews

Ron Klinger is a leading international bridge teacher and has represented Australia in over 20 world championships since 1976. An Australian Grand Master and a World Bridge Federation International Master, he has written over 60 books, some of which have been translated into Bulgarian, Chinese, Danish, French, Hebrew and Icelandic. Two of his titles - Guide to Better Card Play and Right Through the Pack Again - won Book of the Year awards. He has created many new bridge ideas and devised a number of conventions. He lives in NSW, Australia, and has written a daily bridge column in The Sydney Morning Herald and The Sun-Herald for over 15 years.

I thought I was ordering the book, not the flipper, therefore, this didn't fulfill all my needs. It's great if you just need a quick reference, but there's a lot more to Mr. Klinger's excellent bidding method that couldn't be covered here. I will buy the book at a bridge event and keep this as a reference.

A very clever way to assess the hands of the partnership. When added to the Goren point count, it should be very difficult to defeat.

Excellent additional bidding tool.

A handbook for Ron Klinger's longer book outlining his Loser Trick Count ideas.

Good summary

I still need the full version.

This is a user friendly book and will add so much enjoyment to your overall bridge game. I highly recommend it

It's a good shortcut to the book The Modern Losing Trick Count.
