The Liberal Redneck Manifesto: Draggin' Dixie Outta The Dark

Synopsis

The Liberal Rednecks - a three-man stand-up comedy group doing scathing political satire - celebrate all that's good about the South while leading the Redneck Revolution and standing proudly blue in a sea of red. Smart, hilarious, and incisive, the Liberal Rednecks confront outdated traditions and intolerant attitudes, tackling everything people think they know about the South - the good, the bad, the glorious, and the shameful - in a laugh-out-loud funny and lively manifesto for the rise of a New South. Home to some of the best music, athletes, soldiers, whiskey, waffles, and weather the country has to offer, the South has also been bathing in backward bathroom bills and other bigoted legislation that Trae Crowder has targeted in his Liberal Redneck videos, which have gone viral, with over 50 million views. Perfect for fans of Stuff White People Like, I Am America (and So Can You), and Dear White People, The Liberal Redneck Manifesto skewers political and religious hypocrisies in witty stories such as the Ten Commandments of the New South and much more! While celebrating the South as one of the richest sources of American culture, this entertaining audiobook issues a wake-up call and a reminder that the South's problems and dreams aren't that far off from the rest of America's.

Just listened to the audio book and was blown away that it hit it on the head for the way that I feel to coming from rural Alabama. Growing up a gay redneck was a hard road to travel and I wish that I had friends like these guys back then. I am 50 now and lived in Atlanta for 24 years in a liberal island in the South but just moved back to rural Alabama to take care of my mama like a good

redneck kid would. Anyway great going guys on hitting the way that I feel on the head. My next buy will be the hardcover of the book to have and guess what some of my family will be getting this for Christmas to.

Really enjoyed this thought provoking book. As a newcomer to Tennessee it made a lot of good points and held a lot of laughs. I am glad that I picked up the hardcover version because so many "one liners" were in the footnotes. The Kindle version might miss some of the fun.

Easy, light reading. thoughtful and well put, with jokes and a sense of humor. If you're already agreeing to their ideology this is going to be a good read, if you're conservative you're probably not going to be as happy. They "hit" as they put it and this book is a good read. It really helped remind me that those voting Trump aren't necessarily just ignorant racists, they also may want their jobs back, their dignity back and Trump has offered them that when the liberals have ignored them. we share the same ideology, for me the book was a great read. for those wondering how Trump won .. now might be the time to dig a little deeper than "those ignorant racists" and a good reminder that PREJUDICED JERKS ARE ALL OVER THIS WORLD, not just in our own southern regions

I have enjoyed Trae Crowder's videos on Facebook so much that I thought I needed to read this book. It was not what I was expecting. I have to say that it was really much more and explains a lot about the South, liberals and people in general. I was familiar with some of the things that they talked about in their book because I grew up in an industrial area where quite a few neighbors/friends were from the South. But there was so much more that I was not really aware of, especially current events. It gives the reader a true view of the South by three men who grew up there and experienced what they are talking about first hand. My only caution is that some of the language could be viewed as offensive by some. If you are not bothered by words that are considered to be off color, then by all means you need to read this book. My favorite parts were their porch talks because it was listening to a video, I could picture them saying the words which gave those sections a lot more life. The ending was awesome especially their final porch talks (which hits so many nails on the head) and The Ten Commandments of the New South.

National treasure, straight from the heart of Dixie Overstatement? Nnnnnope! Three brilliant buddies write with such wit and heart and earthiness, well -- it's just pure soul food, that's what it is. And let's face it, what American from any area of this country or from any

place on the political spectrum couldn't use some Made In America soul food just about now? This book is for anybody on any side of the Mason-Dixon line, and certainly for any Yankee whose knowledge of the South is limited to some pretty shallow stuff (uh - me), that is, say so digging the music but psychically scarred by "Deliverance" -- this book is, yes, damn enlightening in the most engaging, historically balanced way about Why Things Are The Way They Are In the South Today. And there's a whole raft of other juicy cultural stuff, including plenty of personal "porch" stories, picturesque and profound and everything else good that starts with a "p"! I find that comics tend to write books that are very light on anything very heavy, but these guys fearlessly and frankly take on Big, Deep, Wide subjects and somehow wrangle them into super sensible, cut-to-the-chase, straight-from-the-hip wisdom, that's -- oh, yeah -- funny as hell. That's no small trick. That's skill and smarts, big-time. And if you don't feel like reading, I'm betting the audiobook is a blast (saw them in person recently, and they are something to see -- unless you hate laughing REALLY hard.) . And these are young guys, they're juuuust getting warmed up, you can feel it.

These three guys are awesome and so is their book. Super easy read it's got a great flow and super clever, witty, funny, smart, and entertaining as hell. So glad I decided to get it. I'm about halfway through and just love it.

YES, there really are educated, liberal rednecks.

My first exposure to Trae Crowder was when a longtime friend sent me a link to one of his back porch chats with the Liberal Redneck. From that moment on, I was hooked. I grew up in East TN, and while I had an admittedly more privileged upbringing, so much of Trae's comedy resonates. When I heard he and his touring partners had a book coming out, I was so excited I was almost scared: how could they live up to the hype?? Let me tell you, they manage it. I have sent excerpts from this book to my mama and my aunties, and if my Granny and my Mimi were still with us (mentally, in my Mimi's case) I would have been sending them excerpts as well. I have woken my husband from a dead sleep so I could read passages aloud. I have laughed until I cried, cried until I laughed, and been both overjoyed and frustrated by the truth of my home. I also may start using the phrase "hits" unless at 35 I'm not quite young enough. In short, these boys have captured the beauty

and the frustration of being at the forefront of a tidal shift in the South, and I'm proud to call myself a fan.
