## Customer Reviews

### Overpriced

I have been cooking for several years and although I just got this book, it is very well detailed. No pictures. Just got the air fryer and will review at a later date. Lets face it Black and Decker has been around a long time, they know what they are doing. I ordered the cookbook for this fryer. Get the book if you get the fryer. It has helpful tips in it.

Good cookbook for the air fryer. Will make it much easier to use the fryer with some variety.

Works perfectly. Wife is happy.

Foods are perfect for everyday people great comfort foods that are easy to make most ingredients you have in your cupboard

I was hoping to get specific information on this fryer, but there was very little info that is specific to this fryer in the book.

Average airfryer cookbook. None of the recipes really jump out at me. Plus asks to preheat to 350 and airfryers only go to 200!!!

love these recipes
