Rebuilding Native Nations: Strategies For Governance And Development

Synopsis

A revolution is underway among the Indigenous nations of North America. It is a quiet revolution, largely unnoticed in society at large. But it is profoundly important. From the High Plains states and Prairie Provinces to the southwestern deserts, from Mississippi and Oklahoma to the northwest coast of the continent, Native peoples are reclaiming their right to govern themselves and to shape their future in their own ways. Challenging more than a century of colonial controls, they are addressing severe social problems, building sustainable economies, and reinvigorating Indigenous cultures. In effect, they are rebuilding their nations according to their own diverse and often innovative designs. Produced by the Native Nations Institute for Leadership, Management, and Policy at the University of Arizona and the Harvard Project on American Indian Economic Development, this book traces the contours of that revolution as Native nations turn the dream of self-determination into a practical reality. Part report, part analysis, part how-to manual for Native leaders, it discusses strategies for governance and community and economic development being employed by American Indian nations and First Nations in Canada as they move to assert greater control over their own affairs. Rebuilding Native Nations provides guidelines for creating new governance structures, rewriting constitutions, building justice systems, launching nation-owned enterprises, encouraging citizen entrepreneurs, developing new relationships with non-Native governments, and confronting the crippling legacies of colonialism. For nations that wish to join that revolution or for those who simply want to understand the transformation now underway across Indigenous North America, this book is a critical resource.

Customer Reviews

"A landmark publication. Any person interested in Native Nations law and policy will want to have this book. It will become the basic deskbook that every leader will turn to for guidance, inspiration, and the hard empirical facts they need for thinking about nation building." Robert A. Williams, author of *The American Indian in Western Legal Thought* "Tribal leaders want to learn from the experiences of other Native nations. This book provides that opportunity by sharing the stories and strategies of diverse Native communities in mobilizing transformative community change." Jacqueline Johnson, Executive Director, National Congress of American Indians "What is the future for American Indian communities? dependency and poverty, or self-reliance and sovereign, community-based government? This book is an invaluable guide to the paths that Native nations are taking toward self-sufficiency and cultural and political renewal. Students, community members, policy makers,

and Native leaders need to read and evaluate the ideas set forth here.â•â•Duane Champagne, author of Social Change and Cultural Continuity Among Native Nations

Miriam Jorgensen is Associate Director for Research in the Native Nations Institute for Leadership, Management, and Policy at the University of Arizona and Research Director of the Harvard Project on American Indian Economic Development.

This book provides an alternative to conventional models of nation-building. As one way for a Native nation to build, this text highlights some interesting concepts for both economic and political development of a Native nation.

I really like this book. It's still in very good condition, and easy to follow and understand the issues discussed by the authors. I recommend it to other people.

Item arrived as described, price right, nice book.

Great starter book to learn about native nation rebuilding. Some wonderful things are happening in Indian Country.

Easy to read and presents a good overview while also going into depth

Really great book.... recommend it for all tribal leaders.
