Customer Reviews

Book by DeLorme Mapping Company

Although I live in Nebraska most of my in-laws live near the Delaware River, either on the Pennsylvania side or the New Jersey side. As a result, I've had many opportunities to explore the general area over the past thirty-five years. As someone not content to stay on the main highways or go to the best-known tourist attractions, I've found the New Jersey atlas and gazetteer to come in most handy. Because secondary roads, including dirt and gravel roads, are shown, I've been able to find time-saving shortcuts and have located out-of-the-way places that aren't on the typical roadmap. Along with the smallest streams and ponds, topographical features are shown, as are hiking trails and the like. This is the one atlas you'll need if you plan on doing any serious exploring of New Jersey.

Like other DeLorme atlases this one shows nearly all the back roads in the state of New Jersey (yes, we do have back roads here!). There are a few minor errors, but the biggest problem is that there are very few names of roads. It makes it hard to tell if you're on the right road and useless for trying to look up an address. Unlike other DeLorme atlases, this one has close up maps of the major

metropolitan areas with almost all the streets, again lacking a few names. The Gazetteer part is great. It has recreation areas, some canoe trips, tons of historic sights, unique natural features, some scenic drives, Atlantic City casinos, some golf courses, attractions, skiing, lots of wildlife viewing places, hiking trailshunting, fishing, and all the private campgrounds in the state.

I bought this book for someone who just received a kayak. After the commotion of birthday present opening subsided, he spent about a hour just looking over all the wonderfully detailed maps with his father-in-law. That's how I knew this atlas was the best present I could give. Everything the other reviewers wrote is true.
