Customer Reviews

Only slightly better than the last book. The departure into depravity, drugs and extreme violence (including against children) leaves me very disappointed.

When L Ron Hubbard set out to write this series, he wanted to write the biggest science fiction work ever written. At ten volumes, it is one of the biggest (if not THE biggest) science fiction work ever written. Brilliantly plotted, it is a delight to read. There is an element of satire running through the series. This must be one of the most underrated science fiction work of all time.

The main bad guy is starting to remind me of someone I grew up with. This person always seems to have things going wrong around them and always is blaming everyone but them self.

I have been working on this series since christmas of this year and although at times I have had to take a break and read something else (which is the best way I find to read a long series such as this) but all that said I still find the plot interesting and the characters relatable good series great satire I can't wait to see how it all ties together

This is a very entertaining and fun read! The satire is a thought provoking commentary on our present society. It flows smoothly and is easy to read. I have read the first 7 volumes and am looking forward to the 8th! I would recommend this to anybody who enjoys reading and particularly reading of a satirical nature. It is thought provoking but not at all ponderous or heavy handed, although the humor is delightfully outrageous in places!

A great read. One you can't put down. I've now read the whole series several times and it's so action-packed, it's incredible. Anything I read after this seems so slow-paced... And the satire is eye-opening pointing to things we can see happening around in the world right now.
