I recently came across Jeff Motes books and the series is one of the best Apocalyptic series I've

ever had the pleasure of reading ! The characters draw you in and you feel, imagine the atrocities and joy they find along their journey in this post apocalyptic world. Don't waitbegin today and plan to be mesmerized until you are complete with the series . I'm actually sad that i have finished.

I very much enjoyed this 3rd installment. Like some other reviewers, I also think this was probably the best book. It almost instantly brought me back into this very scary (but very possible world).In particular, I've often thought about how close almost all of us are to being a Jimmy. How bad circumstances combined with some bad decisions can quickly change a life trajectories. I imagine most of us would do almost anything to prevent our family from starving to death. This is actually why training is so important because people by and large tend to make the wrong choices when in a very stressful situation. But training and planning can reduce this tendency.I also thought the ending was very nice. Mr Motes brought everything together, with a bit of a surprise, but one that was well substantiated by the evidence. I look forward to seeing where this story goes.

I hated to put this book down to go to bed and finish the next morning. It could be my favorite of the three so far, but I say that with each one. You get so wrapped up into the story you just want to scream at the pages. I had to be quiet because my husband reads them, too, ha! You feel like you are right there with the characters, your heart races and your blood pumps. All of it is written realistically and you can easily see it happening at any moment in life. I am ready for a Book Four now, and the waiting for a new one begins again....

The continuing story of how people of faith deal with the survival decisions they must make in an apocalyptic world. One passage as the grandfather is talking to his grandson, really moved me. This is not your typical apocalypse story. These main characters have a deep faith and the struggles they deal with show a more humanistic side, the sanctity of life, the power of love and the belief that a supreme being can and does answer prayers. Very enjoyable to read a story of this fashion and I am hoping Jeff Motes will continue the storyline wherever it goes. I find these three books even more entertaining as each chapter (mostly) is told from a different character's point of view. Very easy and quick reading and I highly recommend this series for anyone searching for a more personal side of an apocalypse.

VERY good installment in what I hope will be several more in the series! A couple of points had me wanting to yell "WILL just grab Lizzy and leave" but the story played out very well with a big shocker

towards the end These characters are believable and it's hard not to think of them as real people the author has done a remarkable job of pulling you into their lives and making them feel like family! I am a big fan of this genre and this series by far is one of my favorites I am hoping for more to come

I have read all three of the books "Once upon an Apocalypse". All three are great books to read. Book three is a very emotional read. It touched my spirit and I would have to remind myself "it is only a story". I highly recommend this book series. Great job Jeff Motes. Looking forward to book 4!

There is so much I want to write, but I don't want to give away any of the story. Whew, what a rollercoaster of action and suspense, so emotional. Great read, great series. If this book would have ended in a cliffhanger like the other two I was going to scream. Please no more cliffhanger endings! Your fans will still continue to want to read the next book, trust me. I sure hope the series continues because a lot of the hard work is ahead for this group. Great read!!

A Heartfelt foreword started this very enjoyable book. Uniquely real, believable characters and plot lines. Unlike many books of this genre, the author uses dialogue that is realistic. The warnings and advice in this story are becoming more prophetic everyday. Take heed!
