Not for current weight watchers program, can't use

Found really nice recipes that I would like to try out one day. I haven't really tried slow cooking crock pot but I got interested in buying this book because I am very meticulous with my diet. There are so many recipes to choose from and the meals are comprehensively and organized in this book. So I know it would be difficult to plan a day or even a week meal for myself and my family. It even includes desserts! Since the recipes here are certified healthy, this is something to look forward to!!

wish there were actual photos. It would be easier to choose a recipe if you'd know how it's gonna look like, right? I guess that's all this book is missing. Over all, it's a great read.

Some good ideas here. I appreciate recipes that send me thinking on my own version of a recipe and aren't so complicated that you never try them. I do like crockpot cooking.

Outdated! Weight Watchers no longer used the Points Plus program. Using very different program Smart Points!

I bought one for my daughter and one for myself. I haven't tried any of the recipes yet but they sure sound delicious. My daughter loves it.

I like warm soups in winter and especially appreciate the variety of recipes, including chocolate desserts and lots of veggie stews

Short on variety . only fifty percent of this book worth trying to attempt making . not all ingredients seem dietary

I give this a 3 because I would not have purchased it had I had time to review in a book store first.
