Customer Reviews

Book by Sidaway, Ian

this is a handy reference for skin tones for portrait artists and anyone who wants to be

I guess I expected more. I was not majorly impressed by this book. The nicest artwork in it was not even a part of the book's instructions (there were nice portraits done entirely different than the book's instructions at the beginning of the chapters). It is supposed to be for oil and acrylic artists but I find the work choppy & the faces look like they are not finished. Maybe I am too picky but even my hubby who is no artist thought they looked weird. I just wouldn't pay an arm & a leg for it. I'd resell mine if I could find a buyer. Cheap!

This is an old standby. I lost the copy that I have had for years. I was excited to find it online. The place was excellent.
