Good Guys Love Dogs

Synopsis

Readers who have enjoyed the romantic, emotional stories of authors like Nora Roberts and Debbie Macomber may enjoy this second chance story for small town veterinarian Colby Williams and big city investor Ian McKinley. "A great story about getting over the past and grabbing joy when it comes your way." Contemporary romance with heart. . . Desperate father Ian McKinley moves his delinquent teenage son to the small Virginia town of Keeling Creek, a place very unlike the New York City life he has been leading. Love takes him by surprise when he falls for Colby Williams, a woman unlike anyone he has ever been drawn to, a small town vet with a heart for animals and a fierce love for a teenage daughter she is also struggling to raise. But Colby has a secret in her past, a secret she's not sure her daughter will ever forgive her for. And as for Ian McKinley, he seems too good to be true. If she had learned anything from the one time she had thrown her heart fully into love, it was that it didn't last.

Customer Reviews

Living in the small town of Keeling, VA, Colby Williams, the only vet in town struggles with raising her teenage daughter, Lena who seems to have been overtaken by a defiant alien who's sullen and angry. Taking on parenthood as a single mother is painful when her once sweet and loving child has gone AWOL. Determined to remain single despite her meddlesome best friend, things heat-up when she meets city slicker Ian McKinley. Ian has moved to the small town from his job and fiancée for a year in hopes of reestablishing his connection with his wayward teenage son, Luke. After an awkward, blind date at her friends Phoebe and Frank's, their, try to ignore chemistry heats up leaving you laughing, crying, wringing your hands to cheering! I absolutely loved the personalities of her characters and the wonderful animals that enhanced the book with their vibrancy. I didn't want it to end!

This book is a sweet, pleasant read. A lite read that has a really good flow and I enjoyed both the writing and the story telling (sometimes you can have one without the other). Ian leaves NYC for a small town and sample living. While doing so, he realizes that he has a lot more in common with these country forks than he ever had with the big city life that he left behind. Colby, a single mother that has proven that she can make it on her own. When she meets Ian, sparks fly and she realizes her loneliness that she's been denying all these years. This is not a love-at-first-sight story. They met. They become friends, and soon after neither can deny the attraction that they have for one another. I can see this easily being a Lifetime Movie of The Week. It has that type of vibe to it. Like I said, Sweet. If you're looking for something lite, not overly emotional, this would make a great choice and right now it's free so you have nothing to lose.

I actually liked this one. Normally, I stay away from contemporary romance books, but this one was pretty good. It made me really root for the two main characters and to get them to be together. It's light-hearted with a few surprises here and there. But it's a solid good book. Some contemporary romance books are dull and boring and badly written, but Inglath Cooper did a good job. The book is engaging and heartfelt and I did cry a few times, but like a good kind of cry. If a book can make me cry the good tears, it's a good book in my opinion. It should make you emotional and get you to care and put the book down thinking that they could be real people and you get to see a glimpse of their lives.

I like the title. This is a light, fun romance. A good read for a weekend. I will read the author again.

Ian McKinley is so busy with business dealings he has lost so much time in his sons life, then he gets a wake up call. Luke gets in trouble with the law, he is picked up with drugs on him. Ian talks to the judge about his lack of time with his son in the seventeen years he has raised him by himself after his wife died four after Luke was born. The judge granted him to take Luke to live in Virginia for his last year in high school. Leaving New York and his job for a year to give his son his full attention is what he wants to do. He meets the town Vet Colby Williams when Luke's dog gets a thorn in her paw. Colby is a single mother of a first green year old who has become very hateful to her mother. You will enjoy that s book I am sure I hated to see it end.

This was an interesting book. Some good memorable paragraphs. I enjoyed the time I spent reading this book. Typical love story though. Guy and gal meet, find reasons not to fall in love. Do fall in love. It could have had some better twists.

This is a wonderful, heartfelt novel during which I laughed, but also dropped a few tears. Ian McKinley and his delinquent teenage son leave New York City and move to a small town, Keeling Creek, Virginia. Like Ian, Colby Williams is also struggling to raise her teenage daughter as a single mom. Ian and Colby become good friends, and she's even saved his life! But Colby has a secret in her past she never wanted to reveal to her daughter, who has become quiet and distant from her mom. Can Ian and Colby find love? Can the kids overcome their rebelliousness? This is a very moving story, excellently written. It will captivate you. Highly recommend.

4.5*, because the characters are well-developed, the plot excellent, and the writing fine. H showed his past mistakes had changed his life, while h took a bit longer to realize that was what she needed to grow up to. The underlying premise that only dog-lovers are only good guys, though, I find to be untrue and obnoxious in its stereotype. Some dog-lovers are bad guys, and some non dog-lovers are good guys.
